PROFESSIONAL SUMMARY

Versatile web developer with practical experience using React, Next.js, and Node.js to create full-stack apps, SaaS tools, and AI-driven platforms. Competent in incorporating responsive UI/UX, authentication systems, and third-party APIs for practical projects. Demonstrated ability to coordinate placements, manage events, and lead student communities. Motivated by innovation, teamwork, and a deep love of technology and solving problems.

SKILLS

ReactJs	**Javascript**	**Typescript**	**NextJs**	**Python**
GenAI	**Java**	**MongoDB**	**SQL**	**NodeJs**

EXPERIENCE

Full Stack Developer Intern – NTS Nihon Global   **June 2025 - Aug 2025**

• Contributed to real-world projects involving backend (Node.js, Express, MongoDB) and frontend (React, Tailwind) development.

• Built and optimized APIs, authentication, and database schemas for scalable applications.

• Developed and deployed features for platforms like Kryft-AI (AI website builder) and ChaloStay (vacation rental app).

• Collaborated with the team to deliver secure, responsive, and production-ready solutions under tight deadlines.

EDUCATION

B.Tech (Computer Science & Business Systems)   **CGPA: 9.54**
2022-2026,
Bharati Vidyapeeth Deemed University (DET), Navi Mumbai

PROJECTS

1. Kryft-AI: AI-Powered SaaS Website Builder ([Kryft])   **Jul 2025**

• Built an AI-based platform (OpenAI + E2B) that generates production-ready Next.js apps from natural language.

• Designed responsive UIs with Shadcn/UI & Radix, integrated Clerk for authentication, and enabled iterative AI editing with real-time previews.

• Used TypeScript, Neon DB, Prisma, Docker, and Inngest for scalable, type-safe backend and containerised deployments.

2. ChaloStay: Full-Stack Vacation Rental Platform ([ChaloStay])   **Jun 2025**

• Developed an Airbnb-style platform with Next.js, Prisma, MongoDB, and Tailwind CSS.

• Implemented secure auth (NextAuth.js + OAuth), dynamic booking with pricing policies, and Cloudinary-powered image uploads.

• Built host dashboards, analytics, and interactive maps using React Leaflet for real-time property discovery.

CERTIFICATIONS/ ACHIEVEMENTS

• Introduction to Model Context Protocol, Anthropic Academy	**August 2025**
• Dev with AI Hackathon (Finalist), BVDUET	**April 2025**
• Prompt-to-Project Challenge (Runner-up), BVDUET	**Feb 2025**
• Google Cloud Computing Foundations & Generative AI, GDSC-BVP-DET	**March 2024**
